The book tells you what evergreens to plant in different soils and climates, how to have good hedges, and how to set out trees and shrubs so they will thrive; contains 64 pages, 46 pictures; helpful and interesting. If you own land and are thinking of planting trees, we will be glad to send you a copy of "The Why and How of Shade Trees and Evergreens," free.

TERMS

At the prices quoted in this list, all goods are f. o. b. Berlin, Md. We do not prepay express or freight charges. A discount of 5 per cent. is allowed on orders accompanied by cash. Boxing and baling free.

We SELL Only Trees we GROW

Every tree sold by Harrisons' Nurseries will be Harrison grown.

Trees grown in the Harrison way are to be depended on—they have the roots, the vigor and vitality to live and thrive wherever they are given a chance.

Harrison trees are true to name. If we are out of a variety, we frankly say so. We will not substitute another variety except on the express order of the customer, and then only from our own stock.

We will not expose our customers to possibility of error in variety or lack of quality in the trees, **and under no circumstances will we sell or offer for sale any nursery stock not grown on our own land under our own direction.**

This is for your protection and for our own. Every tree you buy from us is Harrison grown, and is so guaranteed. You know that it will prove to be just what it is sold for.

For Your Protection See Page 3

J. G. Harrison & Sons have been engaged in the nursery business for more than a quarter of a century. Our trees are favorably known throughout the Eastern States, and in many sections elsewhere. We are not only Nurserymen, but extensive growers of fruit—having large orchards in the neighborhood of Berlin and in other parts of Maryland and adjoining States. We have 2500 acres of land under cultivation for nursery purposes, giving us the most extensive resources of any nurserymen in the country. We grow fruit trees by the very latest methods adapted to give trees which our own experience has shown to be of the best type for fruit production. **Our prices are based on quality;** not made to compete with inferior stock.

HARRISONS' Trees Succeed Anywhere

For Your Protection

THIS price list, both as to varieties and prices, is corrected to January 1st, 1913. As we are selling only trees we grow, we list just those varieties which are in stock at the time of printing of this price-list. For many years the list, especially of peach and apple, in Nursery catalogs has been burdened with worthless varieties. This year we have declared war on a whole lot of them, and you will find the list following to be composed of pretty good ones throughout.

We budded more of the best varieties; therefore, the list that we show contains practically all of the leading kinds. Earlier in the season our list of varieties, both of the leading and other kinds, is, of course, more complete. "We sell only trees we grow" for the protection of our customers.

FALL, 1913.—A PRICE LIST SHOWING LIST OF ALL STOCK THAT WE WILL HAVE TO OFFER FOR PLANTING FALL, 1913, OR SPRING, 1914, WILL BE READY FOR DELIVERY AFTER JUNE 1st, 1913. IF YOU DESIRE INFORMATION AT THIS TIME, WRITE US. OUR STOCK OF ALL LEADING VARIETIES WILL BE COMPLETE.

"SELLING ONLY TREES WE GROW" MEETS WITH THE APPROVAL OF OUR CUSTOMERS.

EATON RAPIDS, MICH., June 3d, 1912.
Messrs. J. G. HARRISON & SONS,
Berlin, Md.

GENTLEMEN:—

"I might add that I have found your firm both liberal and honorable. You were sold out of one variety of apples I wanted last spring, and that convinced me I could depend upon your trees being 'True to Name.' I am a bit suspicious of Nurseries who are never out of any variety."

Very sincerely,
FRANK E. FORD,
Secretary, Eaton County Hortl. Society.
